

Oguzhan Yildiz

Game Programmer

oguzhan00yildiz@gmail.com +358449716754 [Oguzhan00yildiz.github.io](https://github.com/oguzhan00yildiz)

Summary

Experienced game programmer with a focus on Unity and C#. Possesses a solid foundation in online multiplayer programming and cross-platform development including Mobile, PC, and PS5 DevKit. Skilled team player with strong communication, initiative, and practical experience in Local LLM integration.

Projects

Co-Lead Game Programmer	2026
LabRATory – Co-op Puzzle Platformer (Unity)	Steam
• Implemented 2-player input handling and advanced character controller. • Developed interactive gameplay systems. • Built full input rebinding and player UI systems. • Integrated Steamworks and handled Remote Play testing.	
Gameplay Programmer & QA Lead	2025
Slug Wars – Online Multiplayer (Unity, Netcode)	Steam
• Developed online multiplayer systems using Unity Netcode. • Implemented core gameplay mechanics and modular systems. • Optimized performance and resolved multiplayer stability issues. • Led QA by organizing structured playtests, tracking critical bugs, and ensuring build stability and gameplay reliability before Steam launch.	
Lead Game Programmer	2023
Gun Merge Master – Mobile Hybrid-Casual (Unity)	Google Play
• Managed the end-to-end development and publishing of a 3D mobile title on Google Play Store after winning a 6-month GameFactory competition, delivering a fully original concept through optimized gameplay mechanics.	

Experience

Hovi Production Oy	2024-2025
• Co-founded the studio and contributed to the online multiplayer game Slug Wars, handling gameplay programming, multiplayer Netcode systems, and QA tasks including playtesting, bug tracking, and ensuring build stability.	

Education

Jamk University of Applied Sciences	2023-2026
